This guide provides the changes to the 837 transactions due to the National Provider Identifier and National Drug Code implementation within the District of Columbia Medicaid Program. The Implementation Guides should be used in conjunction with this companion guide.

***Please note the page numbers listed below in each of the tables represent the corresponding page number in the ANSI ASC X12N , March 2003 Combined Implementation Guide for this transaction.**

837 Professional – Data Clarifications

*Page	Loop	Segment	Data Element	Industry Name	Comments
Billing/Pay-To Provider Specialty (Loop 2000A)					
76	2000A	PRV	01	Provider Code	Use "BI"
77	2000A	PRV	02	Reference Identification Qualifier	Use "ZZ" when an NPI is used for the billing provider.
77	2000A	PRV	03	Billing Provider Taxonomy	Use the taxonomy code that is on file with us for the Billing Provider. This is required to ensure that the claim processes correctly when an NPI is used.
Billing Provider Name (Loop 2010AA)					
83	2010AA	NM1	08	Identification Code Qualifier	If the billing provider is an atypical provider, use '24' to indicate EIN or '34' to indicate SSN. If the billing provider is a healthcare provider, use 'XX' to indicate NPI.
83	2010AA	NM1	09	Billing Provider Identifier	Use EIN or SSN for atypical provider or NPI for healthcare provider.
Billing Provider Address (Loop 2010AA)					
86	2010AA	N4	03	Billing Provider Zip	Use billing provider's physical location 5 digit zip plus 4 digit zip code extension. The extension is required to ensure that the claim processes correctly when an NPI is used.
